

Our Family Helping Your Family

Our Story

The Levinson Firm, LLC has been family-owned since 1981. What Larry Levinson started as a general practice transformed into a thriving estate planning practice in the mid-1990's. As the firm's clients aged, Larry noticed they were asking more questions about long-term care and aging-related issues.

In 2002, he added elder law to the practice to meet his and other clients' needs. As one of the first law firms in Delaware focused not just on estate planning, but also on elder law, we have been at the forefront of advocating for our clients' right to asset protection and long-term care Medicaid benefits. We filed our first Medicaid application in 2003, hired a former Medicaid case worker in 2006 who has been with us ever since, and have assisted our clients in filing hundreds, if not thousands, of Medicaid applications since.

Larry's daughter Karla joined the practice in 2007 and practiced with her dad until he suddenly passed away in 2014. She then took over the firm. Her sister Linda left a nursing career and now also practices law with her. Karla and Linda's other sister Julia is the office manager. The three Levinson sisters have continued to assist clients all over Delaware with their estate planning and elder law needs.

As a family-owned business, we view our clients as part of our family and treat them all with the compassion and kindness they deserve.
